Problem 2: Array Reverse

Code:

```c
#include <stdio.h>
int main() {
    int n, i;
        printf("Enter number of elements in the array: ");
    scanf("%d", &n);
    int arr[n];
        printf("Enter the elements of the array:\n");
    for(i = 0; i < n; i++) {
        scanf("%d", &arr[i]);
    }

        printf("Reversed array:\n");
    for(i = n - 1; i >= 0; i--) {
        printf("%d ", arr[i]);
    }

    return 0;
}
```
